### Upcoming:

I am retiring from my regular job as an associate professor at Roskilde University, Denmark, but continue nevertheless my association with this university as an *emeritus*.

I have a variety of interesting tasks as an external examiner (censor) at other universities, and I plan to participate in a few conferences, the first one being the NSU (Nordic Summer University) winter session in Odense about *Education for sustainable living*.

Besides I continue writing on various booklets and papers (Rhetoric and Visual Communication), and I have some video productions planned as well.

Follow the news on my website.
