## Upcoming:

Currently I am writing on the rhetoric of moving images and especially looking at the camera work involved in political debates and speeches on TV.

I have just participated in the Nordic Conference on Rhetoric Research (NKRF6) in Aarhus. I keep working on the paper I presented there, *The Rhetoric of the TV-camera - Politicians on TV - and how to be moved by the camera*. Hopefully it will appear in the proceedings from the conference.

Furthermore I am running a workshop in Video, a course in Visual Culture and plan on going to Rome on a Field Trip with students from the Rhetoric course.
