Upcoming:

Currently I am writing on the rhetoric of moving images and especially looking at the camera work involved in political debates and speeches on TV. Also I am writing about the poetic nature and camera work of short art films.

Before the end of Summer I hope to climb the Alpe d'Huez with my bike.

During Fall I plan on participating in the **Nordic Rhetoric Conference (NKRF6) in Aarhus**. Here is the preliminary title of my paper presentation:

*Political Debates and the Rhetorical Moves of the Television Camera
- moving the audience by moving the camera.*

Furthermore I will be running workshops in Speech and in Video, a course in Visual Culture and go to Rome on a Field Trip with Rhetoric students.
